

# Pick-a-Problem

**DIRECTIONS:** Choose any problem. It can be global, addressed in this unit, or of more local concern. Then use the Internet and other sources as needed to research the problem to find answers to the following questions and any others you think are relevant:

1. What is/are the causes of the problem?
2. What is the scope of the problem? Who is affected and where?
3. What is the impact of the problem? Does it create other problems?
4. Who is or has been addressing the problem? What has been done?
5. What has worked? What efforts have failed? Why?
6. What do experts say should be done?
7. What do YOU think should be done?
8. Other?
